Vessel & Contingency Plans Update

Dear Valued Customers,

Further to our previous advice, we have been informed the Capitaine Tasman 67N cannot complete her current exchange at Multi Cargo wharf. We wish to thank Ports of Auckland who have enabled the vessel to continue operations at Fergusson terminal to load the remaining 311 units. Work is anticipated to be complete by Monday 25th after which she will sail direct to Noumea, prior to Fiji ports.

The Capitaine Wallis 387 will continue to wait for cargo discharging off the Tasman 67N in Noumea for connection to Vanuatu.

We are working on berthing plan for the Capitaine Dampier and will communicate as soon as firm. We regret these delays and continue work closely with our partners to minimise impacts to schedules.

Again, our deepest thoughts and sympathies remain with the family, friends, and all of those affected by the tragic incident at Ports of Auckland.

Sincerely,
NPDL
