Australia to Norfolk Island Barge Service

Dear Valued Customers,

We are pleased to advise that commencing 1st of November NPDL will commence the first of a planned four sailings of barge service between Brisbane and Norfolk Island. The service will offer sailings ex Brisbane on a 30-day rotation until February 2023. The additional service has been implemented to alleviate the current freight crises experienced by the Norfolk Island community and will supplement the planned sailings of the Southern Tiare between Auckland and Norfolk Island.

The barge has the capacity to accommodate 1000 tonnes or 26 containers and 350 tonnes of breakbulk cargo. The service has been secured via collaboration and financial support from the Australian Government, which has been directly passed onto the Norfolk Island community to reduce the freight costs.

NPDL continues to work on developing a longer-term solution and looks forward to providing further details in due course over the coming weeks.

Thank you for your continued support, should you have any further queries please contact your NPDL representative.

Sincerely,

NPDL
